## LAMPIRAN

### Lampiran 1. Lembar *Informed Consent*

No. Etik Penelitian : 448/UN4.6.4.5.31/PP36/2021, Tanggal 12 Juli 2021

Judul Penelitian : Peranan Aquaporine-3 dan Ceramide Terhadap SawarKulit Pada Bayi

### **FORMULIR PERSETUJUAN SETELAH PENJELASAN (INFORMED CONSENT)**

Berikut adalah naskah yang akan dibacakan kepada Ibu responden penelitian :

Saya adalah mahasiswa S3 program studi ilmu kedokteran Universitas Hasanuddin yang akan melaksanakan penelitian sebagai salah satu kegiatan dalam menyelesaikan tugas akhir di program studi S3 universitas hasanuddin.

Tujuan penelitian ini adalah untuk mengetahui kadar Aqaporine-3 dan ceramide sebagai penanda sawar kulit pada bayi, sehingga dengan adanya data kadar Aquaporine3 dan Ceramide kedepannya dapat dijadikan salah satu penanda penentuan kondisi sawar kulit sejak dini.

Saya mengharapkan partisipasi Ibu untuk bersedia menjadi koresponden dalam penelitian ini dengan berpartisipasi untuk menjawab beberapa pertanyaan seputar masalah kondisi riwayat penyakit kulit ibu dan bayinya serta bersedia dan sukarela untuk ibu dan bayi di periksa kondisi kulitnya dengan menggunakan Trans Epidermal Water Lost (TEWL).

Pemeriksaan TEWL dilakukan dalam waktu sekitar 30 menit. Pertama-tama calon responden mengkondisikan suhu tubuh dengan suhu ruangan dengan cara duduk sekitar 20 menit di dalam ruang pemeriksaan. Pemeriksaan dilakukan pada lengan dalam bagian bawah. Selanjutnya bagian lengan dalam bagian bawah di bersihkan dengan menggunakan kapas pembersih yang mengandung antiseptik. Selanjutnya alat TEWL di lekatkan/ditempelkan pada bagian lengan dalam bagian bawah yang telah di bersihkan untuk dilakukan pengukuran nilai TEWL, pengukuran berlangsung sekitar 30 detik. Tahapan terakhir adalah pembacaan.

Tanggapan atau jawaban yang Ibu akan kami jaga kerahasiannya dan hanya digunakan untuk kepentingan penelitian ini

Terima kasih atas kerjasama Ibu Setelah mendengar dan memahami penjelasan penelitian ini, dengan ini saya menyatakan

SETUJU/TIDAK SETUJU\*

Untuk ikut sebagai respondent/ sample penelitian
