Title: Corrections required - Please resubmit your manuscript (revised)
Text: Manuscript: COP-2022-3-13/R1 RESUBMISSION - Case Report Human Ocular Thelaziasis: A Case Report from Indonesia Authors: Liem Mysie Kristi Harlimton (Co-author), Sitti Wahyuni (Co-author), Alif Reza (Co-author), Junaedi Sirajuddin (Co-author), Hasnah B. Eka (Co-author), Itzar Chaidir Islam (Co-author), Andi Muhammad Ichsan (Corresponding Author) Date submitted: 2022-04-14
Dear Dr. Ichsan,
Thank you for your revised submission to Case Reports in Ophthalmology.
After an initial check we noted the following is missing or needs to be corrected:
1) Please upload your original source files for your highlighted and clean manuscript. These should be docx or rtf files.
2) Please note the clean copy version of your manuscript file should be devoid of line numbering.
3) Author Contributions Author Contributions: In the Author Contributions section, a short statement detailing the contributions of each person named as an author should be included. Please name each author with their full name rather than with initials. Do not use the term 'All authors' as each author is to be listed individually. Contributors to the paper who do not fulfil the ICMJE Criteria for Authorship (http://www.icmje.org/recommendations/browse/roles-and-responsibilities/defining-the-role-of-authors-and-contributors.html) should be credited in the Acknowledgement section.
4) Data availability statement Thank you for stating: "All data that support the findings of this study are included in this article." Please additionally also include a contact name for any questions such as " Further enquiries can be directed to the corresponding author."
5) Figure parts should be denoted by bold lowercase letters (a, b, c, etc.)
6) In the text identify references by Arabic numerals [in square brackets]. Avoid using superscript. For correct presentation refer to our article template https://www.karger.com/Journal/Guidelines/251887
Corrections should be made to both the existing highlighted and clean manuscript copies (and tables if applicable). The clean copy should be devoid of any marking and line numbering.

Text: Manuscript: COP-2022-3-13/R1 RESUBMISSION - Case Report Human Ocular Thelaziasis: A Case Report from Indonesia Authors: Liem Mysie Kristi Harlinton (Co-author), Sitti Wahyuni (Co-author), Alif Reza (Co-author), Junaedi Sirajuddin (Co-author), Hasnah B. Eka (Co-author), Itzar Chaidir Islam (Co-author), Andi Muhammad Ichsan (Corresponding Author) Date submitted: 2022-04-20
Dear Dr. Ichsan,
Thank you for your amendments. However, there are still corrections which need to be completed prior to review.
1) Thank you for submitting your Response to Editor. However as per our Author guideline a Response to Reviewers is required so please provide your detailed response to reviewers into the relevant place in the online submission system as well as uploading your response to reviewers file.
Corrections should be made to both the existing highlighted and clean manuscript copies (and tables if applicable). The clean copy should be devoid of any marking and line numbering.
Please complete the requested amendments and re-submit your manuscript as soon as possible. Please contact us if you have any questions or require any assistance.
Kind regards,
Rita Czirjak Editorial Office 'Case Reports in Ophthalmology' cop@karger.com
