2.	<p>Q: Do you enjoy using songs to learn new vocabulary words? If so, why?</p> <p>A: Yes, I do. As I said before, a song is very entertaining for me. I listen to a song repeatedly plus some music platforms provide lyrics to the songs which make it easy for me to memorize the words.</p>
3.	<p>Q: Are there any specific genres or artists that you find particularly helpful for learning new vocabulary words through songs? 1.	<p>Q: What motivates you to use songs as a tool for improving your vocabulary?</p> <p>A: Music can benefit us in a terms of vocabulary enrichment and pronunciation as well. Through listening music as a way of enriching our vocabulary, we can also learn some expressions that we probably don't learn at school since some of the songs contain informal expressions that used in real life situation especially applied in English Speaking Countries; in contrast to the school that teach us to use English in formal situation and correct way to use English based on their grammatical rules.</p>

2.	<p>Q: Do you enjoy using songs to learn new vocabulary words? If so, why?</p> <p>A: I do. Learning English through songs can sometimes guide us to use the word in some other contexts rather than in only one situation. Aside from that, new expressions can be found through songs in which it makes our English one steps forward like a native than speaking in a literal way.</p>
3.	<p>Q: Are there any specific genres or artists that you find particularly helpful for learning new vocabulary words through songs? Why?</p> <p>A: There is no specific genre of music that I listen to. As long as the singers sings the lyric of the song in a clear way and also the music is not louder than it, I think it is going to be the song that will help me to gain new English words.</p>
4.	<p>Q: Have you noticed any improvements in your ability to remember vocabulary words since you started using songs as a tool for learning? Please elaborate</p> <p>A: I have, and the way I noticed is when I implemented the words or expressions in an event, It could reminds me where I learnt the words/expression that I just expressed.</p>
5.	<p>Q: Are there any advantages of English songs that are related to vocabulary learning that you have encountered?</p> <p>A: There are, let say the songs from Taylor Swift. I found that she used so many figure language that one probably find it hard to understand literally. Learn the language from her could make my English a bit more like a pro because I am not always relying on the literal english.</p>
6.	<p>Q: Are there any challenges or disadvantages you've encountered when using</p>

	<p>songs as a tool for vocabulary improvement? If so, what are they?</p> <p>A: For disadvantage, some English songs don't obey English Grammatical Rules. Let takes an example from Bebe Rexa song called “the way I are” in which it is supposed to be “the way i am”.</p>
7.	<p>Q: How likely are you to continue using songs to improve your vocabulary in the future ?</p> <p>A: By being more watch out, especially the songs in nowadays has contained more explicit lyrics.</p>

1.	<p>Q: What motivates you to use songs as a tool for improving your vocabulary?</p> <p>A: Sebenarnya kalau misalnya dibilang motivasi awalnya ya kak, motivasinya cuman karena apa ya, mungkin karena lagi suka dengar-dengar lagu bahasa inggris aja waktu SMP, nah. Waktu itu juga kan kalau misalnya mendengarkan</p>

	<p>lagu penasaran juga ni liriknya gimana, mulai dari situ, mulai ada ketertarikan, ternyata biasa dari lirik-lirik itu ternyata saya juga bisa belajar lewat lagu.</p> <p>[talk about initial motivation, the motivation is, perhaps because I like listening to English songs back in junior high. At that time when I listen to a song I'm curious about the meaning of it, at that point, I feel interested, apparently from those lyrics I realize I can learn through song.]</p>
2.	<p>Q: Do you enjoy using songs to learn new vocabulary words? If so, why?</p> <p>A: Enjoy, karena kan di satu sisi, songs kan bisa kita nikmati lagunya kan, di satu sisi juga kita bisa mengambil arti-artinya kita juga bisa liat makna dari lagunya jadi kalau misal dibilang enjoy, enjoy kak.</p> <p>[Enjoy, because on the one hand, we can enjoy the songs, right? On the one hand, we can take the meaning, we can also see the meaning of the song, so if you say enjoy it, enjoy it sis.]</p>
3.	<p>Q: Are there any specific genres or artists that you find particularly helpful for learning new vocabulary words through songs? Why?</p> <p>A: Enggak, karena waktu itu sampai sekarang pun kalau misalnya dibilang, saya tidak liat genre sih kalau misalnya untuk belajar bahasa inggris kak, saya ngikutin trend aja gitu, mengalir aja gitu belajarnya.</p> <p>[No, because at that time even now, I can say, I don't look at genres, for example, to learn English, I just follow trends, just flow like that.]</p>
4.	<p>Q: Have you noticed any improvements in your ability to remember vocabulary words since you started using songs as a tool for learning? Please</p>

	<p>elaborate</p> <p>A: Iya ada, kalau misalnya improvement mungkin udah lebih banyak tau vocab ya, kalau misalnya mungkin untuk struktur kalimat kan enggak, tapi kalau misalnya vocab atau kosakata ada improvement.</p> <p>[Yes there is, for example, improvement . Maybe I know a lot more vocab, however for sentence structure, not, but for vocab or vocabulary there is an improvement.]</p>
5.	<p>Q: Are there any advantages of English songs that are related to vocabulary learning that you have encountered?</p> <p>A: Ada, karena kan dari pertanyaan sebelumnya yang kalau misalnya enjoy, enjoy. kalau misalnya dibilang belajar saya juga belajar, kalau misalnya dibilang banyak keuntungan pasti ada kak, karena disatu sisi saya juga bisa enjoy lagunya, di satu sisi juga saya bisa belajar dan itu sangat-sangat mengubah.</p> <p>[Yes, because from the previous question, for example, if it's a matter of enjoyment, I enjoy it. if for example you say I am learning, I am also learning, if for example you say there are lots of advantages there must be, because on one hand I can also enjoy the songs, on the one hand I can also learn and it really, really impactful]</p>
6.	<p>Q: Are there any challenges or disadvantages you've encountered when using songs as a tool for vocabulary improvement? If so, what are they?</p> <p>A: Mungkin eh, kadang kalau misalnya kita lihat lirik dari lirik lagunya, terus kita mau terjemahkan kata perkata kadang ada beberapa lagu yang kalau</p>

	<p>misalnya dijelaskan dengan kata perkata ada yang gak nyambung, jadi disitu sih challengenya, tp bukan di situ sih disadvantages.</p> <p>[Maybe, sometimes if for example we look at the lyrics of the song, then we want to translate word for word, sometimes there are some songs that, if explained word for word, some don't connect well, so there's the challenge, but the drawbacks aren't there.]</p>
7.	<p>Q: How likely are you to continue using songs to improve your vocabulary in the future?</p> <p>A: Mungkin ya, tapi nggak menutup kemungkinan juga enggak karena kan kalau misal dibilang, banyak dari selain lagu ternyata masih banyak lagi tempat untuk belajar bahasa inggris yang lebih efektif, contohnya kayak nonton film kak, atau speaking dengan teman atau gitu.</p> <p>[Maybe yes, but I there is possibility, because, there are many other things than songs, in fact there are many other places to learn English that are more effective, for example, like watching movies, sis, or speaking with friends or something like that.]</p>

1.	<p>Q: What motivates you to use songs as a tool for improving your vocabulary?</p> <p>A: Uh, for me personally, I never really see uh, English songs as a tool to improve my vocab. Usually I would listen to them because I enjoy them and naturally, uh, it seems that my vocab is getting better as I listen to it more and</p>

	<p>more. But I guess technically it is. It is a tool in a way that it improves my vocab. So for me, I just want to be able to sing the song that I'm listening to. And naturally, when you're trying to sing it the same way as the artist singing the song, your vocab would try to mimic the artist as best as possible. So I guess, yeah, that's why I keep listening to the music and naturally it improved my vocab.</p>
<p>2.</p>	<p>Q: Do you enjoy using songs to learn new vocabulary words? If so, why?</p> <p>A: Yes, I enjoy using songs to learn new words in English. Um, 'cause if you truly enjoy listening to a song, you wanted to be able to sing that song and then you wanted to be able to understand what the song means. So when you are able to, you know, sing it the same way as the artist, as I said before, and when you were able to understand what the words actually means, it kind of makes you happy. And at the same time, it improves your English overall. So yeah, I really, really enjoy listening to English songs, especially when I'm able to sing it the way that the artist did it and to be able to understand what the words actually mean.</p>
<p>3.</p>	<p>Q: Are there any specific genres or artists that you find particularly helpful for learning new vocabulary words through songs? Why?</p> <p>A: For me, and this is just personal opinion, I feel like hip hop or rap songs is the best, the best genre of music that you can use to improve your vocabs and words. Because in in rap songs generally they have a lot more, I mean a lot more words. Than they usually have for example in hip hop or jazz music. Excuse me. And I feel like if you are able to mimic the rap song and you know as good as the rapper singing or as good as the artist, do it and you'll be able to you know understand the words that are being rap. I think that's that's a very, very good way and you'll be able to learn a whole lot, a</p>

	<p>whole lot more vocab than you would learn when you're listening to pop songs. That's my opinion.</p>
4.	<p>Q: Have you noticed any improvements in your ability to remember vocabulary words since you started using songs as a tool for learning? Please elaborate</p> <p>A: Yes, I to me songs and movies is the best. Like it's the foundation of my English. So that is the only thing that helped me to remember the words and there to remember the meanings, to find new words and to remember them and to understand their meaning. So the next time I listen to it from a different song, I could, you know, I don't have to try to wee what it means anymore. And I don't have to try to mimic it because I've already experienced it before from another song. So I feel like songs and you know and movie, especially songs if you enjoy them and you, you know, sing it, sing along with it for a long time. I feel like it's such a perfect way to be able to truly remember more full cap words because it is entertaining, entertaining especially for people who really, really enjoy to listen to music.</p>
5.	<p>Q: Are there any advantages of English songs that are related to vocabulary learning that you have encountered?</p> <p>A: Songs that are related to vocab learning. I'm assuming you meant that the theme of the song itself is about learning English vocab. Me personally, I never encountered such a songs. Probably you're gonna have those songs for kids and or for babies listening it to it on YouTube like cocoa melons video if if I understand the question correctly. But for me when I'm trying to listen to songs I just listen to whatever I enjoy at the moment. So yeah, I never really encountered any English any songs that are related to vocabulary learning, but based on my experience or listening to general music, general English music, it helps. So I would, I would imagine that if you were to encounter</p>

	<p>music that I solely focus on learning, you know, English vocabulary, then I'm pretty sure it will help a lot. It will help a lot if you enjoy it. Yeah, that's for me the important part, but if you do enjoy the song, I'm 100% sure that it will help you and that will be a very good advantage for you to learn English vocabulary through songs.</p>
<p>6.</p>	<p>Q: Are there any challenges or disadvantages you've encountered when using songs as a tool for vocabulary improvement? If so, what are they?</p> <p>A: Challenges, I think it's just more about how you are able to figure out what they're actually saying. Because we understand that in English language itself, it has a lot of accent and everything. So you just have to be able to kind of mimic what they're saying first, you know, especially if you don't have too much access to Internet connection and all that. I would say that that's a disadvantage when you're learning English from songs. But nowadays I feel like everyone has an Internet connection. So if you're able to just say, you know, find the lyrics on the Internet, listen to how the artists say the words and you know, read it, read it along as the artist says the word, and then try to find out what the word means, it won't be a disadvantage anymore. So I feel like as long as you have good Internet connection, as long as you're enjoying what you're listening and you're willing to take time to kind of, you know, see the lyrics and sing along with it. And I don't think it's such a hard thing to do, especially if you enjoyed listening to the songs, then you will be fine except for you know if you are not really willing to look up the song, you just want to listen to it. Or maybe you don't have a good Internet connection. I guess that would be a disadvantage to learning English through songs rather than reading it in books.</p>
<p>7.</p>	<p>Q: How likely are you to continue using songs to improve your vocabulary in the future?</p>

	<p>A: It's very likely. I mean, as I said before, I enjoy listening to music a lot. So I feel like I will continue to listen to me to music for as long as I'm able to, you know? And in that way, learning from my past experience up until now, I feel like if I just keep listening to the musics and just enjoying it, I feel like my vocab would. Just, you know, get more broader and broader as the times goes on. So yeah, I feel like it is. It is very, very likely that my vocab would continue to improve as I listen to songs.</p>

<p>3.</p>	<p>Q: Are there any specific genres or artists that you find particularly helpful for learning new vocabulary words through songs? Why?</p> <p>A: Saya sering mendengarkan lagu dari Taylor swift karena selain musiknya yang enak untuk didengarkan, lirik lagunya pun contain kosakata kosakata yang bisa dibilang advanced, ya. Atau jarang ditemui dalam kehidupan sehari-hari jadi dengan mendengarkan lagunya saya bisa mempelajari vocabulary baru yang belum pernah saya dengar sebelumnya</p> <p>[I often listen to songs from Taylor Swift because apart from the music being pleasant to listen to, the lyrics of the songs also contain vocabulary that can be considered advanced. <p>4.</p>	<p>Q: Have you noticed any improvements in your ability to remember vocabulary words since you started using songs as a tool for learning? 5.	<p>Q: Are there any advantages of English songs that are related to vocabulary learning that you have encountered?</p> <p>A: Menurut saya, lagu ini efektif digunakan dalam meningkatkan vocabulary karena biasanya ketika mendengarkan lagu kita akan merasa enjoy dan, I think it is a fun way. 6.	<p>Q: Are there any challenges or disadvantages you've encountered when using songs as a tool for vocabulary improvement? If so, what are they?</p> <p>A: Kalau menurut saya sih, challenge ini lebih ke konten lirik lagunya sih, karena tidak semua jenis lagu bisa digunakan untuk belajar, maksudnya kita perlu mempertimbangkan target atau kepada siapa lagu ini akan diajarkan, seperti kita yang mahasiswa sih sebenarnya nda masalah ji semua jenis genre lagu kayak, bisa ji dipelajari. tapi kalau untuk anak-anak sd atau anak sekolah kan kalau dikasih lagu tentang percintaan menurutku kayak tidak tepat begitu.</p>

	<p>[In my opinion, this challenge is more about the lyrical content of the song, because not all types of songs can be used for learning, meaning we need to consider the target or to whom this song will be taught, like us students there is no problem with all types of song genres. Like, you can learn it. but for elementary school children, if they are given a song about romance, in my opinion, it doesn't feel appropriate.]</p>
7.	<p>Q: How likely are you to continue using songs to improve your vocabulary in the future?</p> <p>A: Menurut saya, menggunakan lagu untuk meningkatkan kosakata ini sangat memungkinkan saya gunakan in the future, karena setiap kali mendengarkan lagu yang baru pasti ada-ada saja kosakata kosakata baru yang saya temui dan belum pernah saya dapatkan sebelumnya jadi secara tidak langsung, pengetahuan kosakata saya dapat meningkat dari lagu-lagu baru yang saya dengarkan.</p> <p>[In my opinion, using songs to increase my vocabulary is very possible for me to use in the future, because every time I listen to a new song there are bound to be new vocabulary words that I encounter and have never gotten before so indirectly, my vocabulary knowledge can be improved from the new songs I listened to.]</p>
