1	<p>Q: How frequently do you use TikTok in a week?</p> <p>A: Almost everyday if i have free time</p>
2	<p>Q: What types of content do typically engage with on TikTok (ex. educational content, Lip-syncing videos, Language-learning challenges, Music-related or Other)</p> <p>A : The content that apperas and often i watch on TikTok is usually quite random, sometimes it can be educational content, english learning content and others.</p>
3	<p>Q : Do you believe that using TikTok has positively impacted your speaking skill?</p> <p>A : Well, in fact using TikTok helped me quite a bit in improving my English. There are many content creators with English teacher background on TikTok that I like to watch. Moreover, usually some of them give interesting content so that as a learner I can understand them easily</p>
4	<p>Q: In what way do you think TikTok has helped you improve your speaking skill?</p>

	<p>A : Yes, using TikTok helped me to improve my english speaking skills,include my pronunciation in english gradually getting better</p>
5	<p>Q : What is your opinion about improving speaking skill by watching TikTok?</p> <p>A : I thing using TikTok as a tool to improve english speaking skills is not a bad thing, some english content creator usually make videos like duet content and then speak using english, even though we don't directly interact and don't get feedback or comments directly but this is enough to help people improve their speaking skills.</p>
6	<p>Q : What difficulties did you find in improving your speaking by using TikTok?</p> <p>A : I think the difficulty of using TikTok to improve English speaking skills is that we don't get direct feedback and don't interact face-to-face with others. Other than that, I don't think there are any other major problems because if we don't get feedback from content creators we can practice directly with acquaintances.</p>
7	<p>Q : What is advantage of watching TikTok related to improving speaking skill?</p> <p>A : Of course one of the advantages of watching TikTok videos related to improving English speaking is that as a learner, I can improve my English speaking easily, the other side of increasing English speaking skills also increases my English vocabulary because I could find some informal expression from different content creators and also my pronunciation becomes better.</p>
8	<p>Q: What is the disadvantage of watching TikTok related to improving speaking skills?</p> <p>A: In my opinion, one of the disadvantages of using TikTok as a platform to improve English speaking skills is that TikTok content creators usually provide videos containing informal conversations that use informal and slang language so that we must be able to sort out properly so as not to use it when having formal conversations with others. In addition, the absence of direct face-to-face interaction is also a disadvantage.</p>

9	<p>Q : Which Accent that really helps you to improve your speaking skills and why?</p> <p>A: The accents that helped me improve my English were American and British English. Why? Because from childhood I used to use them, and sometimes mix the two unconsciously when I speak. Until now, I follow some TikTok content creators who use those accents.</p>
10	<p>Q : If you could suggest, what feature you want to suggest to TikTok application for educational features (especially speaking skills), and how it will work?</p> <p>A : If possible, I would like a feature where content creators and viewers can give each other real-time feedback on pronunciation, intonation, etc. This would definitely be an interesting and interactive feature that TikTok users could access for free without any conditions, allowing everyone to interact without prejudice. It's like a small class but conducted "Live" for many users and everyone can do it, not just content creators with a large following but all TikTok users can use it too.</p>
