|                | Rata-rata | 276.858   | 310.745 | 240.77 | 273.975 | 275.59    |

**Lampiran 10c. Hasil Analisis ANOVA Pengaruh Suhu dan Waktu inkubasi terhadap Bilangan Penyabunan (mg KOH/g) VCO****Tests of Between-Subjects Effects**

Dependent Variable: Bil. penyabunan

| Source               | Type III Sum of Squares | df | Mean Square | F       | Sig. |
|----------------------|-------------------------|----|-------------|---------|------|
| Model                | 2.452E6 <sup>a</sup>    | 16 | 153230.337  | 282.592 | .000 |
| Suhu                 | 19542.289               | 3  | 6514.096    | 12.013  | .000 |
| Lama_inkubasi        | 220.377                 | 3  | 73.459      | .135    | .937 |
| Suhu * Lama_inkubasi | 954.322                 | 9  | 106.036     | .196    | .991 |
| Error                | 8675.715                | 16 | 542.232     |         |      |
| Total                | 2460361.103             | 32 |             |         |      |

a. R Squared = .996 (Adjusted R Squared = .993)

### Lampiran 10d. Hasil Uji Lanjut Pengaruh Suhu terhadap Bilangan Penyabunan (mg KOH/g) VCO

Bil\_penyabunan

| Duncan |   | Subset   |          |          |
|--------|---|----------|----------|----------|
| Suhu   | N | 1        | 2        | 3        |
| S3     | 8 | 2.4091E2 |          |          |
| S4     | 8 |          | 2.7398E2 |          |
| S1     | 8 |          | 2.7686E2 |          |
| S2     | 8 |          |          | 3.1074E2 |
| Sig.   |   | 1.000    | .808     | 1.000    |

Means for groups in homogeneous subsets are displayed.  
Based on observed means.  
The error term is Mean Square(Error) = 542.232.
