APPENDIX

1. Synopsis of *Twelfth Night* by William Shakespeare

Act I

Orsino, Duke of Illyria, is despairing that he is spurned by the Countess Olivia. She has forsworn men's company for seven years while she mourns the death of her brother and rebuffs all his advances. Nearby, a group of sailors arrive on shore with a young girl, Viola, whom they have rescued from a storm at sea. Viola laments the loss of her twin brother, Sebastian, in the shipwreck. She resolves to fend for herself by dressing as a boy to get work as a page to Duke Orsino.

Despite his former rejection, Orsino sends his new page Cesario (Viola in disguise) to court Olivia for him. Cesario/Viola fell in love at first sight with her master Orsino, so she goes to court Olivia unwillingly. To make matters more complicated, Olivia continues to reject Orsino but is attracted to Cesario. She sends her proud steward, Malvolio, after him with a ring. Thus, a genuine love triangle arises between Olivia, Viola/Cesario, and Orsino.

Act II

Meanwhile, members of Olivia's household plot to expose the self-love and aspirations of the steward, Malvolio. These include Olivia's uncle, Sir Toby elch, her servant, Maria, and Sir Toby's friend, Sir Andrew Aguecheek. Sir andrew also happens to be seeking the hand of Olivia. Together, they use a

letter to trick Malvolio into believing Olivia loves him. The letter demands that Malvolio appear in yellow stockings, cross-gartered, and smiling to show his love for Olivia. After he does so, the Countess is horrified and has Malvolio shut up in the dark as a madman. Meanwhile, Viola's twin brother, Sebastian, has also survived the shipwreck. He comes to Illyria with his sea-captain friend, Antonio, who is a wanted man for former piracy against Orsino.

Act III

Sir Andrew's affections for Olivia lead him to be jealous of Cesario, and he decides to declare a duel between them. Thanks to a prank by Sir Toby, both Andrew and Cesario believe that their opponents intend to fight to the death. They both shirk the fight. However, the sea-captain Antonio passes by and mistakes Cesario for Sebastian, and intervenes to defend his friend. He is recognised by Orsino's men and arrested. Later, Sebastian comes along and is challenged by Sir Andrew, who thinks he is Cesario. Sebastian, trained in combat, wins the fight. But Olivia intervenes and invites Sebastian into the house, also thinking him to be Cesario (this is clearly a common mistake). Olivia and Sebastian are married that night.

Act IV

Malvolio, held in the dungeon for being a madman, is psychologically tortured by Maria, Sir Toby, and Feste, the court fool. Feste dresses up as a priest to convince Malvolio that he is, in fact, mad. After realising that they

might get into trouble for treating Malvolio this way, they allow him a pen and paper to be able to write a letter to Olivia.

Act V

Antonio is brought to talk with Orsino, and upon seeing Cesario, he accuses him of betrayal. Just then, the real Sebastian arrives to apologise for fighting Sir Toby. The twins see each other and discover that they are both alive. Orsino's fool, Feste, brings a letter from Malvolio, and on his release, Maria's letter is revealed to be fraudulent. Malvolio departs promising revenge. Maria and Sir Toby have already married in celebration of the success of their plot against the steward.

The play ends as Orsino approves the union between Olivia and Sebastian. Realising his own attraction to 'Cesario', Orsino promises that once Viola is dressed as a woman again, they will be married as well.

2. Biography of William Shakespeare

William Shakespeare was a renowned English poet, playwright, and actor born in 1564 in Stratford-upon-Avon. His birthday is most commonly celebrated on 23 April, which is also believed to be the date he died in 1616.

Shakespeare was a prolific writer during the Elizabethan and Jacobean ages of British theatre (sometimes called the English Renaissance or the Early

Modern Period). Shakespeare's plays are perhaps his most enduring legacy, but they are not all he wrote. Shakespeare's poems also remain popular to this day.

Records survive relating to William Shakespeare's family that offer an understanding of the context of Shakespeare's early life and the lives of his family members. John Shakespeare married Mary Arden, and together they had eight children. John and Mary lost two daughters as infants, so William became their eldest child. John Shakespeare worked as a glove-maker, but he also became an important figure in the town of Stratford by fulfilling civic positions. His elevated status meant that he was even more likely to have sent his children, including William, to the local grammar school.

William Shakespeare would have lived with his family in their house on Henley Street until he turned eighteen. When he was eighteen, Shakespeare married Anne Hathaway, who was twenty-six. It was a rushed marriage because Anne was already pregnant at the time of the ceremony. Together they had three children. Their first daughter, Susanna, was born six months after the wedding and was later followed by twins Hamnet and Judith. Hamnet died when he was just 11 years old.

Shakespeare's career jump-started in London, but when did he go there? We now know Shakespeare's twins were baptised in 1585, and that by 1592 his reputation was established in London, but the intervening years are considered mystery. Scholars generally refer to these years as 'The Lost Years'.

During his time in London, Shakespeare's first printed works were published. They were two long poems, 'Venus and Adonis' (1593) and 'The Rape of Lucrece' (1594). He also became a founding member of The Lord Chamberlain's Men, a company of actors. Shakespeare was the company's regular dramatist, producing on average two plays a year, for almost twenty years.

He remained with the company for the rest of his career, during which time it evolved into The King's Men under the patronage of King James I (from 1603). During his time in the company Shakespeare wrote many of his most famous tragedies, such as King Lear and Macbeth, as well as great romances, like The Winter's Tale and The Tempest.

Shakespeare's company that we have about half of the plays at all. They collected them for publication after Shakespeare died, preserving the plays. These writings were brought together in what is known as the First Folio ('Folio' refers to the size of the paper used). It contained 36 of his plays, but none of his poetry.

Shakespeare's legacy is as rich and diverse as his work; his plays have spawned countless adaptations across multiple genres and cultures. His plays have had an enduring presence on stage and film. His writings have been

compiled in various iterations of The Complete Works of William Shakespeare, which include all of his plays, sonnets, and other poems.

William Shakespeare continues to be one of the most important literary figures of the English language.

Shakespeare's success in the London theatres made him considerably wealthy, and by 1597 he was able to purchase New Place, the largest house in the borough of Stratford-upon-Avon. Although his professional career was spent in London, he maintained close links with his native town.

Recent archaeological evidence discovered on the site of Shakespeare's New Place shows that Shakespeare was only ever an intermittent lodger in London. This suggests he divided his time between Stratford and London (a two or three-day commute). In his later years, he may have spent more time in Stratford-upon-Avon than scholars previously thought.

On his father's death in 1601, William Shakespeare inherited the old family home in Henley Street part of which was then leased to tenants. Further property investments in Stratford followed, including the purchase of 107 acres of land in 1602. Shakespeare died in Stratford-upon-Avon on 23 April 1616 at the age of 52. He is buried in the sanctuary of the parish church, Holy Trinity.
