APPENDIX

“Welcome to wonderland”

Welcome to wonderland

We've got it all

Potions and pastries that make you grow tall

Forests and cottages, castles and cards that can talk

Welcome to wonderland

Look where you're at

Maddest of hatters The Cheshire Cat

Magical cabins and lovely white rabbits with clocks

Dancing through a dream

Underneath the stars

Laughing till the morning comes

Everyone that leaves has a heavy heart

Oooh, won-derland I love

Welcome to wonderland

I'll be your guide

Holding your hand under sapphire skies

Let's go exploring or we could just go for a walk

Welcome to wonderland

Where should we go

There's a tea party along down the road

Make an appearance and maybe they'll sing us a song

Dancing through a dream

Underneath the stars

Laughing till the morning comes

Everyone that leaves has a heavy heart

Oooh, won-derland I love

Nothing around here is quite

As it seems

Not sure if anything is real or a dream

And the only thing sure from the start

Is the song that's inside of your heart

Don't let

It leave

If this was a dream then at least I've got

Memories for when morning comes

Now that I must leave with a heavy heart

Oooh, won-derland I love

“Trying my best”

I know you think I got it all figured out 'cause

I walk around like my head's in the clouds but

I'm just a boy with his heart pourin' out of his head

I wish that you could see the pain that I've seen and

All of the time I spent being not me and

I hope you know it's not always happy in my head

'Cause I don't know

The perfect road to go down

But I know

I'm trying my best

I'm trying my best to be okay

I'm trying my best but every day

It's so hard

And I'm holding my breath

I'm holding my breath 'til I can say

All of the words I wanna say

From my heart

If you really wanted I could let you inside

It's been so long and I've got nothing left to hide

Would you believe me if I told you that I've got flaws

Now it's time to let the curtains unfold and

Tell all the stories that I didn't want told

I let it out so I unburden my soul

I won't stop

'Cause I don't know

The perfect road to go down

But I know

I'm trying my best

I'm trying my best to be okay
I'm trying my best but every day
It's so hard
And I'm holding my breath
I'm holding my breath 'til I can say
All of the words I wanna say
From my heart

“I can’t carry this anymore”

Feel it heavy in my bones now
Feel like everybody goes out
And smiles for the 'gram yeah
Tried but I can't
Prayer in the shape of Prozac
Try to medicate the lows that
Come and meet me in the night time
Losing track of my time
Mama said gonna be all right
But mama don't know what it's like in my mind
Mama said that the sun gonna shine
But mama don't know what it's like to want to die
I can't carry this anymore
Heavy from the hurt inside my veins
I can't carry this anymore

Wonder what it's like to be okay
Would you like me if I drank that
If you wanted I could take that
I'll do anything for love
I don't feel like I'm enough
You can probably see right through me
'Cus I can promise if you knew me
You would probably walk away
No you wouldn't want to stay
Oh, Mama said gonna be all right
But mama don't know what it's like in my mind
Mama said that the sun gon' shine
But mama don't know what it's like to want to die
I can't carry this anymore
Heavy from the hurt inside my veins
I can't carry this anymore
Wonder what it's like to be okay
I know I'll be fine it's just that
Every time this comes back
Tell my maker up above that
I have had enough and
I can't carry this anymore
Heavy from the hurt inside my veins

I can't carry this anymore

Wonder what it's like to be okay

“Dawning of spring”

I dreamed a dream of you and me

I dreamed that we were young

And in that dream

We sailed the sea to a land

We loved

What a wonderful scene

There was such a nice breeze

All the memories were free

And the birds they were singing for us

Singing for us

As we walked with bare feet

In a field by the sea

There was just you and me

No directions and no need to rush

No need to rush

I got lost while the sunlight was painting us gold

I got lost hoping that we would never get old

I got lost when you walked with my hand in your hand

I got lost when you asked me if I'd like to dance

I got lost in the whispering sound of the breeze

I got lost in a daydream of silence and peace
I got lost in the moment, the space in between
I got lost, I got lost in the dawning of spring
We took a seat
Just you and me
Laying in the sun
We made believe
That we could be
Anything we'd want
We ran back through the trees
Staring up through the leaves
Not a cloud to be seen
And the birds were still singing for us
Singing for us
And the sun had drawn near
And the sounds we could hear
Were so sweet and so clear
And the world it was gleaming for us

“Robin Hood”

Could have been my happy ever after
Living like we're in a fairy tale
But you and me were more like a disaster
I should have known

Intoxicated by your reputation
I can see the mischief in your eyes
Trusted you despite my reservations
Now I'm alone
I was so rich with all this love
You wanted it and I was so dumb
I let you in when I should have run
Now all that's left is something numb
I gave you all I had to lose
My skin, my soul, my finest jewels
You stole it all for someone new and then
You gave away the best of me
My sins, my sweetest ecstasy
To someone worth much less than me
Yeah, you're my Robin Hood
Everybody says that you're so great, yeah
Walk around like you deserve that gold
But what would happen if they knew the place that
You got it from?
I guess that I was just another victim
Someone that you thought that you could play
I had a feeling and I should have listened
Now there's no us

I was so rich with all this love
You wanted it and I was so dumb
I let you in when I should have run
Now all that's left is something numb
I gave you all I had to lose
My skin, my soul, my finest jewels
You stole it all for someone new and then
You gave away the best of me
My sins, my sweetest ecstasy
To someone worth much less than me
Yeah, you're my Robin Hood
So alone, so alone
I gave you all I had to lose
My skin, my soul, my finest jewels
You stole it all for someone new and then
You gave away the best of me
My sins, my sweetest ecstasy
To someone worth much less than me
Yeah, you're my Robin Hood

“Walked through the hell”

I guess all the mountains that I moved just weren't enough
And all those nights I walked you home
From crowded bars when you were drunk

Well, they meant nothing 'cause you up and walked away
And I just wonder what it'd take to make you stay
'Cause when you said, "Jump" I said, "How high?"
But when I jumped, you said, "Goodbye"
I would've walked through hell
To find another way
I would've laid me down
If I knew that you would stay
I would've crossed the stars
To keep you in my life
But now I'm falling hard
Without you here tonight
What did you do with all that love you couldn't give?
And do you need someone to help you, tell you what to do with it?
It must be nice to love someone who puts you first
Then walk away when they expect it in return
'Cause when you said, "Jump" I said, "How high?"
But when I jumped, you said, "Goodbye"
I would've walked through hell
To find another way
I would've laid me down
If I knew that you would stay
I would've crossed the stars

To keep you in my life
But now I'm falling hard
Without you here tonight
You don't want me

Nothing I can do
'Cause you don't wanna try
I would've walked through hell
To find another way
I would've laid me down
If I knew that you would stay
I would've crossed the stars
To keep you in my life
But now I'm falling hard
Without you here tonight
Without you here tonight
Without you here tonight
Without you here tonight

“It’s raining it’s pouring”

My eyes, oh they're stormy
And I don't wanna leave this bed
It's raining, it's pouring
It's four in the morning

And I don't wanna cry
But I need you here cus I'm a mess
Blue skies turn to grey now
My eyes turn to rain clouds

And I'm tired
It's been three weeks since you left me
So tonight I'm feeling empty
Don't know why
We were nine clouds high
Then we fall down
Nowhere to hide
Caught in the fallout
And I can't lie
Wish you'd call now
For one more time
One more time
It's raining, it's pouring
My eyes, oh they're stormy
And I don't wanna leave this bed
It's raining, it's pouring
It's four in the morning
And I don't wanna cry
But I need you here cus I'm a mess

Flash back to your apartment
Slow dancing in the darkness
We were fine
I knew then, we should've seen this
And we tried but somehow we missed
All the signs
Now we're nine clouds high
Then we fall down
Nowhere to hide
Caught in the fallout
And I can't lie
Wish you'd call now
For one more time
One more time
It's raining, it's pouring
My eyes, oh they're stormy
And I don't wanna leave this bed
It's raining, it's pouring
It's four in the morning
And I don't wanna cry
But I need you here cus I'm a mess
Come back home
Just come back home

Just come back home

It's raining, it's pouring

My eyes, oh they're stormy

And I don't wanna leave this bed

It's raining, it's pouring

It's four in the morning

And I don't wanna cry

But I need you here cus I'm a mess
