## LEMBAR PENJELASAN KEPADA CALON RESPONDEN

Dengan hormat,

Nama saya RAHAYU, sedang menjalani pendidikan magister kebidanan di UNIVERSITAS HASANUDDIN MAKASSAR. Saya sedang melakukan penelitian yang berjudul “Pengaruh Pemberian Kalsium Terhadap rasito endotelin-1 dan nitric oxide Pada Ibu Hamil Riwayat Preeklampsia”.

Preeklampsia adalah suatu sindrom spesifik pada kehamilan dengan gejala klinis berupa penurunan perfusi organ akibat vasospasme dan aktivasi endotel. Preeklampsia hingga saat ini masih merupakan komplikasi serius dalam kehamilan dan patofisiologinya masih belum diketahui dengan pasti, namun tanda-tandanya dapat diketahui dengan adanya peningkatan TD, proteinurine dan edema.

Pada masa kehamilan Kebutuhan kalsium meningkat. Selain penting bagi kesehatan tulang ibu dan janin, asupan kalsium yang cukup dapat mengurangi kejadian hipertensi selama kehamilan, mengurangi risiko preeklampsia dan mencegah kelahiran prematur. Program kementerian kesehatan yang dilakukan adalah memberikan suplementasi tablet kalsium untuk pencegahan preeklampsia bagi semua ibu hamil terutama yang memiliki resiko tinggi terjadinya preeklampsia dan ibu hamil yang ada di area dengan asupan kalsium rendah dengan dosis 1,5-2 gram per hari. Namun sampai sekarang program tersebut belum berhasil karena masih banyaknya ibu hamil yang tidak mengkonsumsi suplemen kalsium secara teratur. Penelitian ini bertujuan untuk mengetahui rasio kadar endotelin-1 dan nitric oxide pada ibu hamil dengan riwayat preeklampsia.

Penelitian ini akan berlangsung selama 8 minggu yang akan dilaksanakan pada februari – april 2019. Pemeriksaan dilakukan 2 kali yaitu pada saat kontak pertama dengan peneliti dan setelah observasi pemberian kalsium.

Pemeriksaan laboratorium yang akan dilakukan pada ibu, saya menjadi tanggung jawab peneliti. Saya selaku peneliti akan menjaga kerahasiaan identitas dan informasi yang akan diberikan oleh ibu

jika bersedia menjadi responden. Peneliti sangat berharap ibu dapat memberi jawaban dengan sejujur-jujurnya sesuai dengan kondisi yang ibu alami atau rasakan.

Sebagai tanda ucapan terima kasih atas kesediaan ibu menjadi responden, peneliti memberikan bingkisan berupa perlengkapan bayi setelah penelitian. Keikutsertaan ibu dalam penelitian ini bersifat sukarela dan tanpa paksaan. Namun apabila responden ingin mengundurkan diri karena sesuatu dan lain hal, maka responden dapat mengungkapkan langsung pada peneliti.

Terima kasih saya ucapkan kepada ibu yang telah ikut berpartisipasi pada penelitian ini. Setelah memahami berbagai hal yang menyangkut penelitian ini diharapkan ibu bersedia mengisi lembar persetujuan yang telah kami persiapkan.

Makassar, 2019

Peneliti

(Rahayu)

**LEMBAR PERETUJUAN SETELAH PENJELASAN (PSP)  
(INFORMED CONSEND)**

Saya yang bertandatangan di bawah ini :

No. Responden : \_\_\_\_\_

Umur : \_\_\_\_\_

Alamat : \_\_\_\_\_

No. HP : \_\_\_\_\_

Setelah mendengar/ membaca dan mengerti penjelasan yang diberikan oleh saudara peneliti. Baik yang berhubungan dengan tujuan, manfaat, dan efek yang ditimbulkan penelitian ini. Maka dengan ini saya menyatakan setuju untuk ikut dalam penelitian ini serta bersedia mengikuti prosedur pengambilan sampel darah secara sukarela tanpa adanya paksaan.

Saya bersedia menjadi responden bukan karena ada paksaan dari pihak lain, namun karena keinginan saya sendiri dan tidak ada biaya yang ditanggung kepada saya sesuai dengan penjelasan yang sudah dijejaskan peneliti.

Hasil yang dari diperoleh dari saya sebagai responden dapat dipublikasikan sebagai hasil penelitian dan akan diseminarkan pada ujian hasil dengan tidak akan mencantumkan nama, kecuali nomor informan.

## II. Anamnese

1. Apakah ibu menerima suplemen kalsium ?  
 a. Ya                      b. Tidak
2. Apakah semua yang diberikan dikonsumsi ?  
 a. Ya                      b. Tidak
3. Apakah ibu merasakan ada manfaatnya ?  
 a. Ya                      b. Tidak
4. Apakah ibu mengkonsumsi tablet lain selain suplemen kalsium yang diberikan oleh bidan di puskesmas ?  
 a. Ya                      b. Tidak
5. Apakah ibu ada riwayat penyakit preeklamsi ?  
 a. Ya                      b. Tidak
6. Apakah ibu ada riwayat hipertensi ?  
 a. Ya                      b. Tidak
7. Apakah ibu ada riwayat penyakit keturunan ?  
 a. Ya                      b. Tidak  
     Jika Ya, sebutkan : .....
8. Apakah keluarga ibu ada riwayat penyakit keturunan ?  
 a. Ya                      b. Tidak  
     Jika Ya, sebutkan : .....
9. Apakah ibu alergi pada jenis obat tertentu ?  
 a. Ya                      b. Tidak
