## Lampiran 2. Hasil Analisis Data dengan Program SPSS

### Analisis Univariat

#### Umur

|                          |         | Umur Responden |           | Total |
|--------------------------|---------|----------------|-----------|-------|
|                          |         | > 40 tahun     | <40 tahun |       |
| Congestive Heart failure | Chf     | 50             | 8         | 58    |
|                          | Non CHF | 28             | 28        | 56    |
| Total                    |         | 78             | 36        | 114   |

#### Hipertensi

|                          |         | Hipertensi |                  | Total |
|--------------------------|---------|------------|------------------|-------|
|                          |         | Hipertensi | Tanpa Hipertensi |       |
| Congestive Heart failure | Chf     | 40         | 18               | 58    |
|                          | Non CHF | 18         | 38               | 56    |
| Total                    |         | 58         | 56               | 114   |

#### Kebiasaan Merokok

|                          |         | Riwayat Merokok |               | Total |
|--------------------------|---------|-----------------|---------------|-------|
|                          |         | Merokok         | Tidak Merokok |       |
| Congestive Heart failure | Chf     | 19              | 39            | 58    |
|                          | Non CHF | 8               | 48            | 56    |
| Total                    |         | 27              | 87            | 114   |

#### Kadar Glukosa Darah

|                          |         | Hiperglikemia / DM |        | Total |
|--------------------------|---------|--------------------|--------|-------|
|                          |         | Hiperglikemia      | Normal |       |
| Congestive Heart failure | Chf     | 19                 | 39     | 58    |
|                          | Non CHF | 9                  | 47     | 56    |
| Total                    |         | 28                 | 86     | 114   |

#### Jenis Kelamin

|                          |         | Jenis Kelamin |           | Total |
|--------------------------|---------|---------------|-----------|-------|
|                          |         | Laki-Laki     | Perempuan |       |
| Congestive Heart failure | Chf     | 36            | 22        | 58    |
|                          | Non CHF | 23            | 33        | 56    |
| Total                    |         | 59            | 55        | 114   |

### Indeks Massa Tubuh

|                          |         | Indeks Massa Tubuh |               | Total |
|--------------------------|---------|--------------------|---------------|-------|
|                          |         | Obesitas           | Tidak Obsitas |       |
| Congestive Heart failure | Chf     | 18                 | 40            | 58    |
|                          | Non CHF | 9                  | 47            | 56    |
| Total                    |         | 27                 | 87            | 114   |

### Analisis Bivariat

#### Hubungan Hipertensi dan Congestive Heart Failure

|                                    | Value               | df | Asymptotic Significance (2-sided) | Exact Sig. (2-sided) | Exact Sig. (1-sided) |
|------------------------------------|---------------------|----|-----------------------------------|----------------------|----------------------|
| Pearson Chi-Square                 | 15.457 <sup>a</sup> | 1  | .000                              |                      |                      |

Nomor : 18159/UN4.6.8/PT.01.04/2019  
 Lamp : ---  
 Hal : Permohonan Izin Penelitian

Makassar, 10 September 2019

Yth. :  
 Direktur RSUP Dr. Wahidin Sudirohusodo  
 Makassar

Dengan hormat, disampaikan bahwa mahasiswa Program Studi Pendidikan Dokter Fakultas Kedokteran Universitas Hasanuddin di bawah ini :

Nama : Sabrina Putri Arrafii  
 NIM : C011171021

bermaksud melakukan penelitian di RSUP Dr. Wahidin Sudirohusodo dengan judul penelitian **"Prevalensi Penderita Congestive Heart Failure berdasarkan Faktor Resiko di RSUP Wahidin Sudirohusodo Periode Januari - Desember 2018"**.

Selubungan hal tersebut kiranya yang bersangkutan dapat diberi izin untuk melakukan Penelitian dalam rangka penyelesaian studinya.

Demikian permohonan kami, atas bantuan dan kerjasamanya disampaikan terima kasih.

Tembusan Yth :  
 I. Arif
