

## **KESIMPULAN**

Ekstrak kulit manggis berpotensi untuk dijadikan sebagai agen protektif dan kuratif dalam menangani berbagai permasalahan kulit karena tingginya kadar bahan aktif yang dapat mengintervensi berbagai macam patomekanisme penyakit kulit.

## **SARAN**

Perlunya dilakukan penelitian lebih lanjut terkait dosis dan metode paling tepat yang digunakan dalam pengaplikasian ekstrak kulit manggis untuk menangani masing-masing penyakit kulit yang berbeda agar didapatkan efektifitas yang tinggi dengan efek samping yang minimal.
