STUDI FAKTOR-FAKTOR YANG MEMPENGARUHI RANTAI PASOK PADA PENYELENGGARAAN PROYEK KONSTRUKSI DALAM MASA PANDEMI COVID-19

Bapak/Ibu yang terhormat,

Saya Deni Dwiraharja, adalah mahasiswa S2 Teknik Sipil, Fakultas Teknik, Universitas Hasanuddin. Pada saat ini saya sedang melakukan penelitian yang berjudul Studi FaktorFaktor yang Mempengaruhi Rantai Pasok pada Penyelenggaraan Proyek Konstruksi dalam Masa Pandemi Covid-19. Penelitian ini dilakukan dalam rangka penyelesaian tugas akhir di Departemen Teknik Sipil, Fakultas Teknik, Universitas Hasanuddin, Makassar.

Saya mohon kerja sama dari Bapak/Ibu untuk mengisi kuesioner ini agar bisa membantu proses pengambilan data penelitian yang sedang dilakukan. Kuesioner ini adalah kuesioner yang disusun untuk mengidentifikasi faktor-faktor yang mempengaruhi rantai pasok pada penyelenggaraan proyek konstruksi dalam masa pandemi Covid-19. Manajemen rantai pasokan adalah serangkaian kegiatan yang meliputi koordinasi, penjadwalan dan pengendalian terhadap pengadaan, produksi, persediaan dan pengiriman produk ataupun layanan jasa kepada pelanggan yang mencakup administrasi harian, operasi, logistik dan pengolahan informasi mulai dari pelanggan hingga ke pemasok.

Saya mengharapkan Bapak/Ibu dapat memberikan informasi yang akurat dan jujur sehingga informasi yang disajikan dapat dipertanggung jawabkan. Semua informasi yang diperoleh akan dijaga kerahasiaanya dan hanya akan digunakan untuk kepentingan akademik. Atas perhatian dan kerjasama yang baik dari Bapak/Ibu, saya ucapkan terima kasih.
