## LAMPIRAN

1. Rekomendasi Persetujuan Etik Penelitian

**REKOMENDASI PERSETUJUAN ETIK**

Nomor : 470/UN4.6.4.5.31/ PP36/ 2022

Tanggal: 29 Agustus 2022

Dengan ini Menyatakan bahwa Protokol dan Dokumen yang Berhubungan Dengan Protokol berikut ini telah mendapatkan Persetujuan Etik :

No Protokol	UH22070368	No Sponsor Protokol	
Peneliti Utama	<b>dr. Dwi Widya Puji Astuti</b>	Sponsor	
Judul Peneliti	Hubungan antara Ketebalan Lemak Epikardial dengan Major Adverse Cardiac Event Pada Pasien Pneumonia Corona Virus Disease -19 yang disertai Sindrom Koroner Akut The Relationship Between Epicardial Adipose Tissue Thickness and Major Adverse Cardiac Event in		
No Versi Protokol	1	Tanggal Versi	14 Juli 2022
No Versi PSP		Tanggal Versi	
Tempat Penelitian	RSUP Dr. Wahidin Sudirohusodo Makassar		
Jenis Review	<input type="checkbox"/> Exempted <input checked="" type="checkbox"/> Expedited <input type="checkbox"/> Fullboard Tanggal	Masa Berlaku 29 Agustus 2022 sampai 29 Agustus 2023	Frekuensi review lanjutan
Ketua KEP Universitas Hasanuddin	Nama <b>Prof.Dr.dr. Suryani As'ad, M.Sc.,Sp.GK (K)</b>	Tanda tangan	
Sekretaris KEP Universitas Hasanuddin	Nama <b>dr. Agussalim Bukhari, M.Med.,Ph.D.,Sp.GK (K)</b>	Tanda tangan	

Kewajiban Peneliti Utama:

- Menyerahkan Amandemen Protokol untuk persetujuan sebelum di implementasikan
- Menyerahkan Laporan SAE ke Komisi Etik dalam 24 Jam dan dilengkapi dalam 7 hari dan Laporan SUSAR dalam 72 Jam setelah Peneliti Utama menerima laporan
- Menyerahkan Laporan Kemajuan (progress report) setiap 6 bulan untuk penelitian resiko tinggi dan setiap setahun untuk penelitian resiko rendah
- Menyerahkan laporan akhir setelah Penelitian berakhir
- Melaporkan penyimpangan dari protokol yang disetujui (protocol deviation / violation)
- Mematuhi semua peraturan yang ditentukan
