## **Lampiran 1 Lembar Informed Consent**

### **SURAT PERMOHONAN MENJADI RESPONDEN**

Kepada  
Yth. Ibu Calon Responden  
Di Tempat

Dengan hormat,

Saya Maria Imakulata Dua Nona, Mahasiswa Fakultas Keperawatan Universitas Hasanuddin bermaksud mengadakan penelitian untuk mengetahui “Gambaran Pengetahuan, Sikap dan Praktik Ibu tentang Kejadian Ikutan Pasca Imunisasi (KIPI) Pada Bayi Usia 0-12 Bulan Di Puskesmas Beru”.

Untuk itu sangat dibutuhkan partisipasi ibu terlibat dalam penelitian ini sebagai responden. Penelitian ini tidak menimbulkan akibat yang merugikan bagi ibu sebagai responden, kerahasiaan semua informasi yang diberikan akan dijaga dan hanya akan digunakan untuk kepentingan penelitian.

Melalui permohonan ini, besar harapan saya atas kesediaan ibu untuk berperan serta dalam penelitian. Jika ibu bersedia berpartisipasi, ibu akan menandatangani “Lembar Persetujuan Menjadi Responden Penelitian” setelah mendapatkan penjelasan secara terperinci mengenai penelitian ini.

Demikian atas kesediaan dan partisipasinya, kami mengucapkan terima kasih.

Makassar, Juli 2024

Peneliti

Maria Imakulata Dua Nona

## Lampiran 2. Lembar Consent

KODE RESPONDEN :

### PERSETUJUAN SEBAGAI RESPONDEN

Saya yang bertanda tangan dibawah ini :

Nama : .....

Usia : .....

Alamat : .....

No.HP : .....

Menyatakan bersedia menjadi responden :

Nama : Maria Imakulata Dua Nona

NIM : R011231128

Fakultas : Keperawatan Universitas Hasanuddin

Judul : Gambaran Pengetahuan,Sikap dan Praktik Ibu Tentang Kejadian Ikutan Pasca Imunisasi (KIPI) Pada Bayi Usia 0-12 Bulan Di Puskesmas Beru.

Setelah saya membaca dan telah menerima penjelasan terkait penelitian serta diberikan informasi yang jelas, maka saya telah memahami bahwa prosedur penelitian ini tidak akan memberikan dampak risiko apapun pada penelitian. Kerahasiaan akan dijamin sepenuhnya oleh peneliti.

Dengan ini saya menyatakan secara sadar dan sukarela bersedia untuk ikut menjadi responden penelitian serta bersedia menjawab semua pertanyaan dengan sebenar-benarnya dalam penelitian ini, persetujuan ini saya buat dalam keadaan sadar dan tanpa adanya paksaan dari siapapun.

Makassar,.....2024

.....

### Lampiran 3. Instrument Penelitian

KODE RESPONDEN :

#### KUESIONER PENELITIAN

#### “GAMBARAN TINGKAT PENGETAHUAN, SIKAP DAN PRAKTIK IBU DALAM MENANGANI REAKSI KEJADIAN IKUTAN PASCA IMUNISASI (KIPI) PADA BAYI USIA 0-12 BULAN DI PUSKESMAS BERU”

##### A. Kuesioner Data Demografi

Petunjuk Pengisian :

1. Isilah pertanyaan di bawah ini dengan cara memberikan tanda cek (V) pada kolom jawaban yang disediakan.
2. Jawablah pertanyaan berikut dengan jujur.
3. Mohon untuk mengisi semua jawaban.

Tanggal Pengisian :

Kode Responden : (diisi oleh peneliti)

1. Inisial Responden :
2. Usia :
3. Pekerjaan: Ibu rumah tangga ( ) Pegawai swasta ( ) PNS ( )
4. Pendidikan terakhir : SD ( ) SMP ( ) SMA ( ) PT ( )
5. Sumber Informasi tentang KIPI : ( ) Tenaga Kesehatan  
( ) Media Sosial
6. Apakah ibu pernah mendapatkan penyuluhan tentang KIPI : ( )  
ya ( ) tidak
7. Apakah ibu pernah mendapatkan pelatihan penanganan KIPI : ( )  
ya, sebutkan jenis pelatihan ..... ( ) tidak
8. Agama : ( ) Islam, ( ) Katolik, Kristen ( ), Hindu ( ), Budha ( )

## B. Kuesioner Data Tingkat Pengetahuan

Pertanyaan – pertanyaan dibawah ini adalah mengenai pengetahuan ibu tentang reaksi kejadian ikutan pasca imunisasi. Istilah jawaban pada kolom yang telah disediakan yaitu kolom benar atau salah, berilah tanda (V) pada jawaban yang saudara anggap paling tepat. Mohon untuk menjawab semua pertanyaan yang telah disediakan terima kasih.

| No  | Pertanyaan                                                                                                                                          | Benar | Salah |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------|-------|-------|
| 1.  | Imunisasi merupakan suatu upaya untuk menimbulkan atau meningkatkan kekebalan tubuh terhadap suatu penyakit.                                        |       |       |
| 2.  | Setelah di imunisasi biasanya bayi mengalami demam ringan yang segera sembuh dengan diberikan obat penurun panas serta dengan diberikan kompres.    |       |       |
| 3.  | Reaksi yang ditimbulkan setelah imunisasi seperti demam dan nyeri ditempat penyuntikan adalah normal.                                               |       |       |
| 4.  | Demam yang timbul setelah imunisasi adalah suatu tanda bahwa kekebalan tubuh bayi mulai terbentuk.                                                  |       |       |
| 5.  | Anak selalu menjadi panas dan rewel setelah di imunisasi.                                                                                           |       |       |
| 6.  | Kejadian ikutan pasca imunisasi adalah kejadian ikutan yang berupa kesakitan yang terjadi dalam kurun waktu sampai satu bulan setelah di imunisasi. |       |       |
| 7.  | Dua minggu setelah imunisasi BCG akan timbul luka bernanah atau bisul kecil pada lengan bayi.                                                       |       |       |
| 8.  | Luka atau bisul kecil setelah imunisasi BCG akan sembuh sendiri tanpa diobati.                                                                      |       |       |
| 9.  | Kejadian ikutan pasca imunisasi dapat terjadi pada semua jenis imunisasi.                                                                           |       |       |
| 10. | Imunisasi DPT dapat menimbulkan reaksi bengkak pada tempat bekas suntikan.                                                                          |       |       |
| 11. | Imunisasi polio dapat menimbulkan reaksi mencret pada bayi.                                                                                         |       |       |
| 12. | Imunisasi campak dapat menimbulkan reaksi demam yang ringan pada bayi dan ini adalah reaksi yang normal.                                            |       |       |

| No  | Pertanyaan                                                                                                                                                       | Benar | Salah |
|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|-------|
| 13. | Reaksi kemerahan pada tempat penyuntikan yang timbul setelah imunisasi campak adalah reaksi yang normal.                                                         |       |       |
| 14. | Imunisasi yang diberikan dengan cara disuntik dapat menimbulkan reaksi nyeri, kemerahan dan bengkak ditempat bekas suntikan.                                     |       |       |
| 15. | Imunisasi boleh diberikan pada anak yang sedang sakit berat.                                                                                                     |       |       |
| 16. | Salah satu tanda dari imunisasi mulai membentuk kekebalan adalah anak menjadi demam.                                                                             |       |       |
| 17. | Saya takut untuk mengimunisasikan anak saya karena imunisasi dapat menimbulkan reaksi panas, rewel, nyeri dan bengkak.                                           |       |       |
| 18. | Imunisasi sangat penting diberikan pada bayi, efek samping yang di timbulkan setelah imunisasi tidak sebanding dengan manfaat perlindungan yang akan didapatkan. |       |       |
| 19. | Jika setelah di imunisasi anak saya menjadi panas saya tidak mau membawa anak saya untuk di imunisasi lagi.                                                      |       |       |
| 20. | Dengan imunisasi maka bayi menjadi sehat terhindar dari penyakit-penyakit berbahaya.                                                                             |       |       |

### C. Kuesioner Sikap Ibu tentang KIPI

| No | Pertanyaan                                                                                                                                                         | Benar | Salah |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|-------|
| 1. | Apabila terdapat bisul yang mengeluarkan nanah dan koreng makin besar setelah imunisasi BCG maka perlu dikompres dengan cairan antiseptic dan membawa ke Puskesmas |       |       |
| 2. | Apabila setelah diberikan imunisasi DPT- B-HIB terjadi demam, maka kenakan pakaian tipis pada bayi dan berikan paracetamol setiap 4 jam sekali.                    |       |       |
| 3. | Jika terjadi bengkak dan kemerahan setelah diberikan imunisasi hepatitis, maka berikan kompres dingin pada daerah bekas suntikan.                                  |       |       |
| 4. | Apabila setelah diberikan imunisasi, anak menangis ketakutan dan berteriak maka saya akan menenangkan anak dan memberikan air hangat atau ASI.                     |       |       |
| 5. | Saya akan membawa anak saya ke tukang pijat apabila anak saya demam dan kejang setelah di imunisasi.                                                               |       |       |

#### D. Kuesioner Praktik Ibu dalam menangani KIPI ringan pada bayi

Pertanyaan-pertanyaan dibawah ini adalah mengenai keterampilan ibu dalam menangani reaksi Kejadian Ikutan Pasca Imunisasi (KIPI) ringan pada bayi. Isilah jawaban pada kolom yang telah disediakan yaitu kolom benar atau salah, berilah tanda (V) pada jawaban yang saudara anggap paling tepat. Mohon untuk menjawab semua pertanyaan yang telah disediakan terima kasih.

| No | Pertanyaan                                                                                                                             | Benar | Salah |
|----|----------------------------------------------------------------------------------------------------------------------------------------|-------|-------|
| 1. | Jika anak saya demam setelah di imunisasi saya akan memberikan kompres untuk menurunkan demam anak saya.                               |       |       |
| 2. | Kompres yang saya berikan untuk menurunkan demam pada anak saya adalah dengan menggunakan air yang hangat (kompres hangat).            |       |       |
| 3. | Saat anak saya demam setelah imunisasi saya akan memakaikan baju yang tipis yang mudah menyerap keringat.                              |       |       |
| 4. | Cara mengompres yang benar adalah dengan meletakkan kompres di dahi dan di ketiak bayi sampai panasnya turun.                          |       |       |
| 5. | Kompres yang saya berikan untuk menurunkan demam adalah dengan menggunakan air es / air dingin.                                        |       |       |
| 6. | Jika anak saya panas setelah imunisasi, saya akan memberikan obat penurun panas (paracetamol) yang diberikan oleh dokter di puskesmas. |       |       |
| 7. | Jika timbul kemerahan pada lengan atau paha anak saya setelah disuntik imunisasi, maka saya akan memberikan kompres                    |       |       |
|    | dingin pada lengan atau paha anak saya tersebut.                                                                                       |       |       |

| No  | Pertanyaan                                                                                                                                                                                               | Benar | Salah |
|-----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|-------|
| 8.  | Jika timbul nyeri setelah imunisasi saya akan memberikan kompres dingin untuk mengurangi rasa nyerinya.                                                                                                  |       |       |
| 9.  | Jika setelah imunisasi timbul bengkak dan keras ditempat penyuntikan saya akan memberikan kompres dengan air hangat untuk mengurangi bengkaknya.                                                         |       |       |
| 10. | Jika timbul demam setelah imunisasi saya akan memberikan banyak minum pada anak saya untuk mencegah kekurangan cairan.                                                                                   |       |       |
| 11. | Jika panas yang timbul akibat reaksi imunisasi tidak turun-turun saya akan datang kembali ke puskesmas untuk berkonsultasi.                                                                              |       |       |
| 12. | Saya akan memberikan larutan oralit pada anak saya jika timbul reaksi mencret setelah imunisasi polio agar anak saya tidak kekurangan cairan.                                                            |       |       |
| 13. | Saya akan memberikan salep kulit pada luka atau bisul kecil yang timbul akibat reaksi imunisasi BCG agar lukanya cepat sembuh.                                                                           |       |       |
| 14. | Keluarga (suami/istri) saya, cemas dan melarang anak saya untuk di imunisasi karena setelah di imunisasi anak saya menjadi panas.                                                                        |       |       |
| 15. | Saya tidak merasa cemas dengan efek samping dari imunisasi karena saya dapat melakukan perawatan dengan memberikan kompres hangat untuk menurunkan panas dan mengurangi bengkak ditempat bekas suntikan. |       |       |
