Lampiran 3. Hasil uji korelasi Pearson

Pearson's product-moment correlation

```
data: In.mks and In.wtp
t = 7.8582, df = 54, p-value = 1.671e-10
alternative hypothesis: true correlation is not equal to 0
95 percent confidence interval:
 0.5786023 0.8332890
sample estimates:
cor
0.7303984
```

Pearson's product-moment correlation

```
data: In.mks and In.pre
t = 11.465, df = 54, p-value = 4.34e-16
alternative hypothesis: true correlation is not equal to 0
95 percent confidence interval:
 0.7436071 0.9045944
sample estimates:
cor
0.8419172
```

Pearson's product-moment correlation

```
data: In.wtp and In.pre
t = 7.5875, df = 54, p-value = 4.584e-10
alternative hypothesis: true correlation is not equal to 0
95 percent confidence interval:
 0.5614622 0.8253621
sample estimates:
cor
0.7183308
```

Lampiran 4. Hasil uji ADF

Augmented Dickey-Fuller Test

```
data: In.mks
Dickey-Fuller = -5.3426, Lag order = 3, p-value = 0.01
alternative hypothesis: stationary
```

Augmented Dickey-Fuller Test

```
data: In.wtp
Dickey-Fuller = -5.1073, Lag order = 3, p-value = 0.01
alternative hypothesis: stationary
```

Augmented Dickey-Fuller Test

```
data: In.pre
Dickey-Fuller = -6.0251, Lag order = 3, p-value = 0.01
alternative hypothesis: stationary
```
