Dear.

Prof. Edna Foa.

I am Jasa Nita Listiana, MD., a doctor who is continuing my studies in the field of Forensics. On this occasion, I am conducting research related to the validity and reliability test of The Child PTSD Symptom Scale For Dsm-V (CPSS-V SR). In the Indonesian language version. The utility of the questionnaire is essential as there is no suitable measure in Indonesia for screening for childhood psychological trauma. Therefore, I am requesting Prof Edna Foa's permission to adapt this questionnaire to the Indonesian language. Thank you.

Dear Aries,

we have no property rights on the measure. We made a translation and adaptation to European Spanish with the authorization by Dr. Murphy and his team. Then the manuscript was published. We have no objection to share everything, but it is all in Spanish. Dr. Murphy is the creator and owner of the test, who also controls the existing translations, etc.

I copy him.

Good luck, best regards.

Jose.

Listiana,

Thank you for your interest in the PSC. Professor Jose Piqueras Rodriguez forwarded your request to us. As the authors of the PSC, we grant you permission. We already have a youth version of the PSC 17 for Indonesia which you can find on our website but you should feel free to retranslate it and or to use it as is in your work.

Please let us know if you have any other questions.
